Redline Gauge Works

# Press Release

Redline Gauge Works adds 2 new products for the Mopar A-Body crowd. Replacement customizable dash panels in black or carbon fiber pattern ABS plastic.

Newhall, CA, 3/24/2004: In an ongoing effort to provide their customers with new ways to personalize their vehicles, Redline Gauge Works is now offering replacement customizable dash panels for the Mopar A-Body vehicles. These high quality vacuum formed ABS panels allow the customer to custom fit and arrange aftermarket gauges of their choice. "Our new A-Body panels will allow for a variety of gauge configurations. They will accommodate any aftermarket gauge up to the standard 3-3/8" diameter", says Redline owner Sean Hudson. These panels will fit a variety of Mopar A-Body vehicles from 1968 to 1976 including the Valiant, Duster, Dart, Scamp, and Demon. Redline can also provide you with the aftermarket gauges of your choice and highly recommends the new Stewart Warner Performance series gauges.
